Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 09 September 2003.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.

Art Unit 1733

DETAILED ACTION

Election/Restrictions

1. Claim 12 stands withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected species, there being no allowable generic or linking claim. Election was made without traverse in Paper No. 6.

Drawings

2. The drawings were received on September 9, 2003. These drawings are acceptable.

Specification

3. The abstract of the disclosure does not commence on a separate sheet in accordance with 37 CFR 1.52(b)(4). A new abstract of the disclosure is required and must be presented on a separate sheet, apart from any other text.

Claim Rejections - 35 USC § 112

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

5. Claim 10 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

It appears from applicants' remarks accompanying the amendment filed on September 9, 2003 that applicants confirm that the "rubber reinforcing layer" recited in claim 10 is in fact the run-flat rubber reinforcing layer described in the specification, but this is not yet clear on the record; if applicants provide confirmation in response to this Office action the examiner will withdraw this rejection.

Claim Rejections - 35 USC § 102

6. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

7. Claims 5-8 are rejected under 35 U.S.C. 102(b) as being anticipated by Japanese Patent Application 7-189144 A or, alternatively, Japanese Patent Application 10-18188 A.

These references are applied for the same reasons as set forth in paragraph 14 of the Office action mailed May 9, 2003 (Paper Number 7). Applicants argue that the JP '144 and JP '188 cords do not meet the requirement for the fraction R "when viewed at an arbitrary angle", however applicants' definition of the fraction R includes no such requirement of viewing at an arbitrary angle, especially in view of the fact that applicants' own invention would fail to meet this requirement (measurements taken in the plane of the ply would include only those X-rays passing through *each of the cords of the ply in sequence* rather than passing through the thickness of the ply (and therefore passing through each of the cords *simultaneously* as depicted in Figures 1 and 2).

Claim Rejections - 35 USC § 103

8. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

9. Claims 5-8 are rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Hatakeyama et al. (4,738,096).

This reference is applied for the same reasons as set forth in paragraph 17 of the Office action mailed May 9, 2003 (Paper Number 7). Applicant's arguments are not persuasive because they amount to a general allegation that the claims define a patentable invention without specifically pointing out how the language of the claims patentably distinguishes them from the references.

Art Unit 1733

10. Claims 9-11, 13, and 14 are rejected under 35 U.S.C. 103(a) as being unpatentable over Hatakeyama et al. (4,738,096) as applied to claims 5-8 above, and further in view of Oare et al. (5,871,600).

These references are applied for the same reasons as set forth in paragraph 18 of the Office action mailed May 9, 2003 (Paper Number 7). No separate arguments were presented for this rejection.

Conclusion

11. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
